Vietnam SitRep**

1. During a 29 November telephone conversation, Mr. Komer brought up the annex on Long An published in the 29 November issue of your memorandum "The Situation in Vietnam". Mr. Komer praised this annex highly, said he had found it extremely useful, and requested more annexes of this type. In the course of these remarks, Mr. Komer mentioned that he and the President got more meat out of Agency publications on Vietnam than those of any other government component.

2. Mr. Komer asked that I pass his praise and thanks through appropriate channels to the author of the annex in question. Since the annex appeared in a Directorate of Intelligence publication, I am doing so by this memorandum to you.
